## SOLUTION

1. There were three suspects in the Living Room.
2. Because B and E are together, they must be in the Living Room.
3. There must be someone in the first row, B is the only one fitting.
4. We know someone was on a chair in the 2nd row. It can only be A.
5. This isolates A, which then isolates E.
6. There is only one cell with a carpet left, which isolates D.
7. This isolates C in the corner of the Main Bedroom.
8. This isolates V, in the Main Bedroom with C.
