

MURDER MYSTERY PUZZLE

difficulty:
medium

winter
rules

Vincent was murdered last night!
His remains were found near a tree.
To identify the murderer, find out exactly where
the suspects were at the time of the murder by
placing them on the crime scene.
Whoever was beside a tree is the murderer.

SUSPECTS

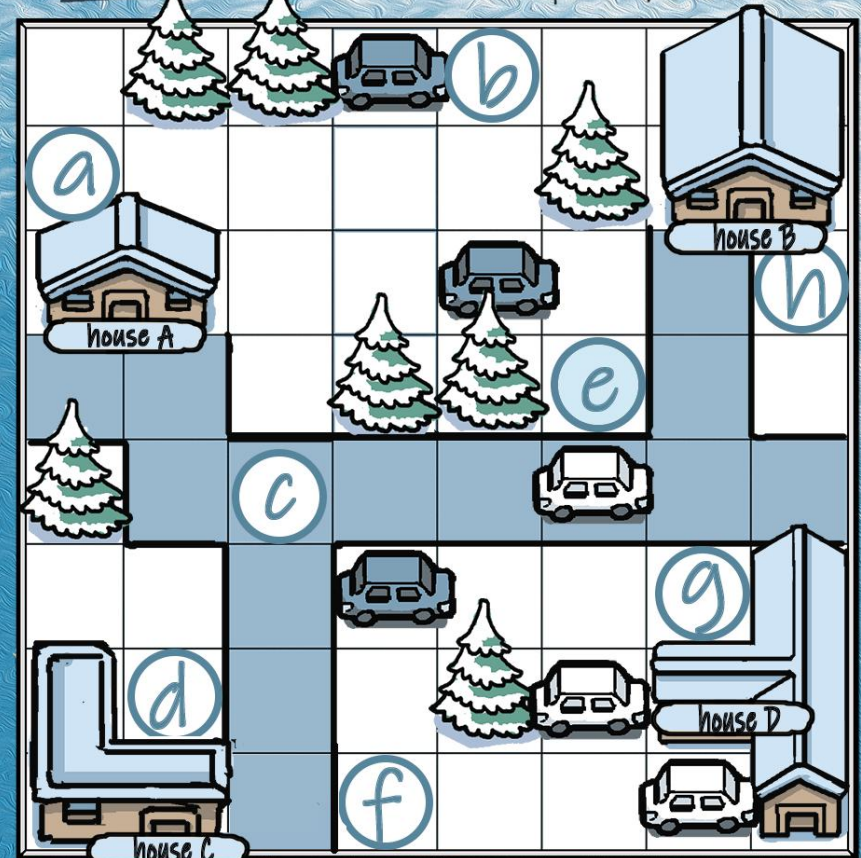

SOLUTION

1. Because the 5th row only has road tiles, C must be in the 5th row.
2. Block every road tile, except those on the 5th row.
3. Because D is in the 2nd column, this isolates A in the 1st column.
4. Because C is West of F and H, she can only be in the 3rd, 4th or 5th column.
5. This isolates either G or F in the 8th column, which then isolates D.
6. H can only be in the 9th column, because he is East of C and F.
7. C is the only person who can be in the 3rd column, this isolates her.
8. This leaves only one tile for B, in the 1st row.
9. This isolates F, which then isolates E, the murderer.

CRIME SCENE

*beside = to the left, right, up or down, in the same room

tree car house
cannot be occupied

snow road
can be occupied
